TELEBEHAVIORAL HEALTH CERTIFICATE PROGRAM

Engage in this focused self-paced certificate course that reviews current evidence and best practices from highly regarded experts in the behavioral health field. This curriculum includes seven online modules that will bring you through interactive content, video, and integrated case scenarios while also addressing special populations such as children, older adults, and cultural competency. This content is adaptive to include perspectives from both acute and ambulatory healthcare settings.

- Introduction to Telebehavioral Health
- Technology, Implementation and Workflow
- Telepresence
- Legal, Regulatory, and Ethical Considerations
- Clinical Application
- Clinical Documentation and Integration with EHR
- Lifelong Learning and Professional Development in the Use of Telehealth
